

PRA-52B

Superlux®

Ceiling Installation Condenser Microphone

Description

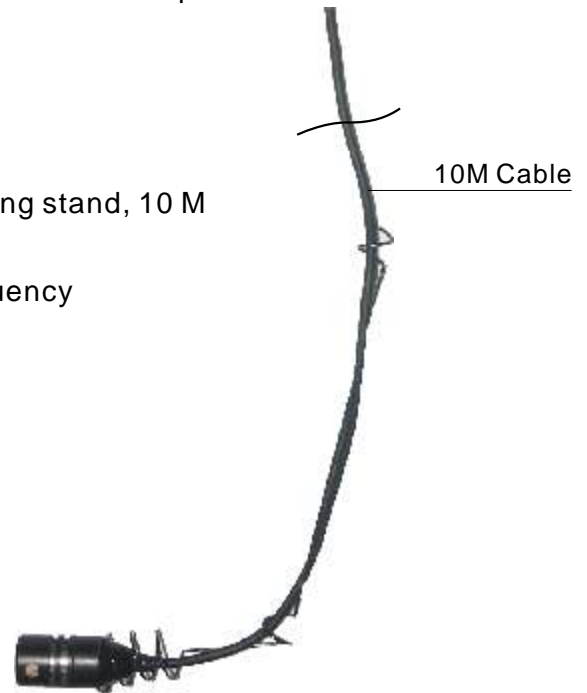

PRA-52B is a condenser microphone for ceiling installation. With a long cable and steel holding spring, it can be installed in an inconspicuous way while keeping the greatest flexibility. A tailored frequency response makes it an ideal candidate for the picking-up of chorus, drama and orchestra performance.

Features

- Mini condenser microphone, fixed on a flexible steel spring stand, 10 M cable.
- High sensitivity, good picking-up features and wide frequency response with minimum high frequency RF interference.
- Phantom powered.
- An alternative of PRA-52W (white).

Specifications

- Type: Condenser Microphone
- Polar Pattern: Cardioid
- Frequency Response: 40~18000 Hz
- Sensitivity: -34dBV/Pa (20mV/Pa)
